

# USER CONFERENCE

## JOIN US

Welcome to the Transit Mobility Alliance User Conference, where we are Driving Innovation Through Partnerships.

This inaugural event stems from many years of success with the *FASTER* User Conference and follows *FASTER* Asset Solutions 40th Anniversary and most attended User Conference to date. This year, the conference will encompass several Transit Technologies sister companies in the transit and fleet industry to provide cross-sector collaboration for a seamless future. Introducing the Transit Mobility Alliance: improving quality of life with safe, effective, and reliable mobility for all through innovative technology solutions.

The Transit Mobility Alliance User Conference will bring together hundreds of top-performing fleet and transit professionals from across the U.S. The conference is designed to provide numerous learning opportunities for our clients, as well as first-class networking. Attendees will have an extensive variety of sessions to attend in the fleet and transit industry, with seven education tracks available. As an added value, attendees can explore additional services, products, and solutions offered by vendors in the Partner Pavilion; an invite-only exhibition space.

Join us in Houston this November 5th-8th, 2023 for the Transit Mobility Alliance User Conference!

# USER CONFERENCE

## EDUCATIONAL TRACKS

### FLEET TRACK

This track will feature sessions covering topics such as fleet maintenance and management, fuel efficiency, driver safety, and regulatory compliance. Attendees will learn about the latest technology and best practices for optimizing fleet operations and reducing costs.

### TRANSIT TRACK

Sessions in this track will cover topics such as route planning and optimization, passenger safety and security, and the latest advances in transit technology. Attendees will learn about best practices for managing transit fleets and improving the passenger experience. This track will also explore emerging trends in public transportation, such as microtransit and Mobility as a Service.

### INTEGRATIONS TRACK

Sessions in this track will explore the benefits of integrations and partnerships, including how they can help organizations reduce costs, improve data quality, and enhance the overall customer experience. By attending this track, attendees will gain valuable insights into how to leverage integrations and partnerships to optimize their operations and drive better business outcomes.

### BUSINESS INTELLIGENCE TRACK

Sessions in this track will cover topics such as data analytics, reporting, and data visualization. Attendees will learn about best practices for using data to improve fleet and transit operations and increase efficiency.

### IT/ADMIN TRACK

This track is ideal for IT and administrative professionals looking to deepen their understanding of fleet and transit operations, improve their skills, and learn about the latest advances in IT infrastructure, administrative functions, and tools. By attending this track, attendees will gain valuable insights into how to optimize their fleet and transit systems to achieve operational excellence.

### FASTER WEB TRACK

The sessions in this track will provide user training on our core product, FASTER Web, and share best practices, valuable insights, and practical knowledge that fleet professionals can apply immediately to optimize their operations.

### FASTER WIN TRACK

This track will provide attendees with in-depth training on FASTER Win. Attendees will learn about the importance of data consistency and integrity, and how to track technicians' productivity. The sessions will also focus on reporting capabilities, enabling attendees to generate custom reports, and extract insights to optimize fleet operations.

### What is the Transit Mobility Alliance User Conference?

The Transit Mobility Alliance User Conference will bring together the community of clients surrounding *FASTER* Asset Solutions, Passio, Ecolane, TripMaster by CTS Software, Vestige, ArgoTrak, and MJM Innovations for four days of collaboration, education, and partnership. This conference is designed to provide numerous learning opportunities for clients in addition to networking opportunities with hundreds of top-performing fleet and transit professionals across the U.S.

**TRANSIT TECHNOLOGIES™**

Transit Technologies provides best-in-class mission-critical software, hardware and services to organizations of all sizes to digitize fleet operations and drive improved cost, compliance and customer service. Transit Technologies is the proud parent company of the organizations that make up the Transit Mobility Alliance.
