Coordinated Transit & NEMT

# Ecolane

Integrated Scheduling Finally Done Right.

The Product

Ecolane's Coordinated Transit solution is built upon the same proven technology that distinguishes Ecolane's product from everything else in the market. The software provides transportation coordinators or brokers the ability to cost effectively manage all aspects of a transportation service, identify public transportation solutions, and process claims within a single, unified interface.

The solution automates provider management, funding source compliance, and trip assignments and presents coordinators with the operational freedom to focus on other aspects of their business. What sets Ecolane's technology apart is the ability to plan trips with continuous schedule optimization that automatically responds to changes in real-time. Over 40 standard reports are included with the software to better enable transit providers to forecast, plan and make decisions. Need information exported to Word, PDF, Excel or CSV files for further processing? Not a problem. Ecolane DRT can handle that too.

Coordinated Transit & NEMT Highlights

✓ Ability to schedule based on least-cost provider, most efficient routing, or combination of the two

✓ Real-time system management dashboard

✓ Automated compliance checks

✓ Real-time schedule optimization

✓ Permissions based provider portal access

Coordinator/Broker

Provider Portal

| Provider | Provider MDT | Provider MDT | Provider MDT |

Coordinated Transit & NEMT Visualized in Steps

1
Coordinator/broker receives a trip request from a client

2
The coordinator software assigns trips to provider based upon pre-determined criteria such as price, funding source, and optimization preferences

3
Trips are reviewed in the Provider Portal and accepted or rejected by agency personnel

4
The transit provider manages customer transport manually, via third-party dispatch software*

5
Providers using manual or third party methods record the trip planning outcome in the portal to make a claim*

* Not needed if using Ecolane DRT

Additional Features & Highlights

**Online Trip Ordering**
